

ECONOVAN 4WD MAXI

Econovan Maxi 4WD

This is the hard-working van that can take a crew and a load to almost anywhere. The 4.7 metre overall length and high roofline mean there's plenty of space inside. Econovan Maxi 4WD has seating for 6 people, or the back seat can be folded forward, to make extra loadspace. And there's a rear step bumper for easy loading.

So load up and head off. A 2.0 litre petrol engine and 5-speed manual floor mounted transmission as well as power assisted rack and pinion steering mean

Econovan Maxi 4WD is a pleasure to drive in the country or in the city. When the need arises its 4-wheel-drive capabilities will make light work of sand, snow, mud and gravel — which makes Econovan Maxi 4WD especially suited for work at mining, construction, logging and survey sites. Econovan Maxi 4WD also makes a great unit for camper conversions.

A limited slip differential improves traction on rough roads and tracks. And Econovan Maxi 4WD has a special auto-timing shift

Engine:

2.0 Litre Petrol Engine

- 4 cylinder overhead camshaft crossflow petrol engine • Taxable horsepower (TRAC rating) 1834 HP
- Compression ratio 8.8:1
- Bore/Stroke 86mm x 86mm (3.39" x 3.39") • Maximum horsepower 62.9 kW @ 5000 rpm
- Maximum torque 154.0 Nm @ 2800 rpm

Transmission Manual

- Five speed all synchromesh transmission with floor mounted shift
- Gear ratios 4.112, 2.552, 1.878, 1.530, 1.252, Reverse 4.092 • Transfer case ratio — High Range 1.880, Low Range 2.210

Steering

- Power assisted rack and pinion steering. Ratio — 21:1

Suspension

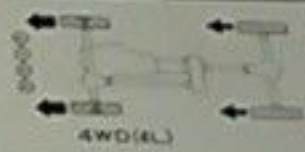

- Fully independent front suspension system with torsion bar springs
- Rear suspension features two stage semi-elliptic leaf springs with employed air absorbers • Semi-floating rear axle

Brakes

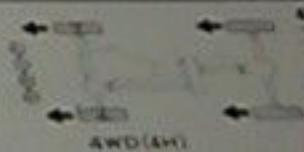

- Dual low power assisted with sensing gravity valve • Ventilate disc brakes • Self-adjusting rear brakes

Fuel

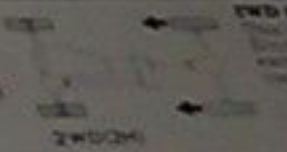

- Econovan Maxi 4WD can run on unleaded fuel

4WD (4L)
 This setting provides traction on all four wheels of 4WD and in addition the pulling power of Low Ratio gearing. Use this for very steep gradients, especially where engine compression braking is needed.

4WD (4H)
 This setting provides the traction of a 4 wheel drive and the benefits of High Ratio gearing. Use this for traveling on unsealed roads at speed, or on sand.

PLEASE NOTE:

1. This specification sheet contains a general description only of the Ford Product referred to on the sheet. Its specifications and features and the currently available for use on or in connection with such product. Generally the optional equipment referred to is available at extra or variable cost. It may be used or ordered in combination with other optional equipment. 2.
